In-patient stop smoking service

All smokers should be referred on admission

NHS
University Hospitals
Coventry and Warwickshire
NHS Trust

Refer all Tobacco smokers to the stop smoking team because:

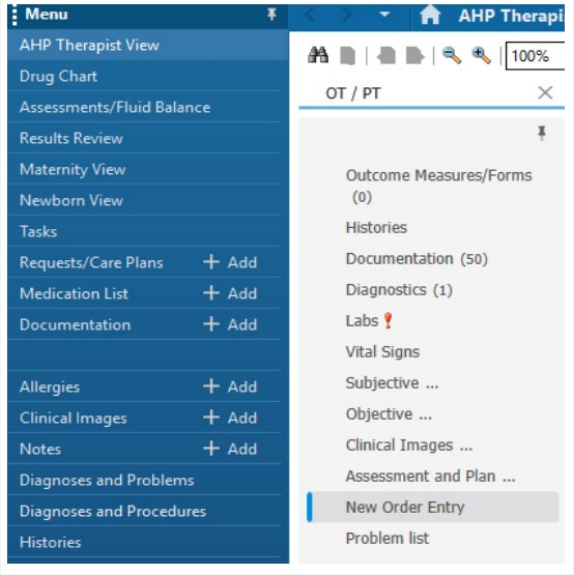

- stopping smoking is the single best thing they can do to improve their health
- people are more likely to quit if they have support
- being in hospital is a teachable moment, just because they haven’t quit before its worth trying again

1

Select patient record

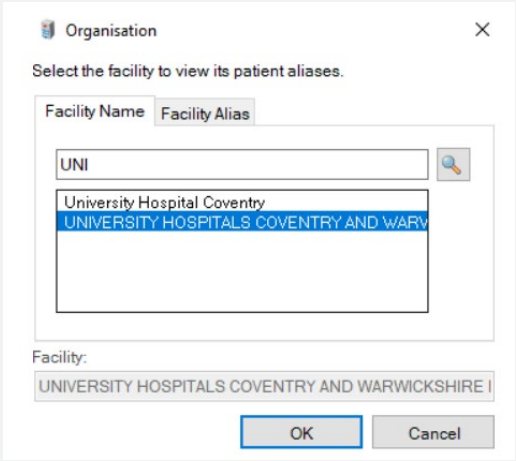

2

Select **New Order Entry**

3

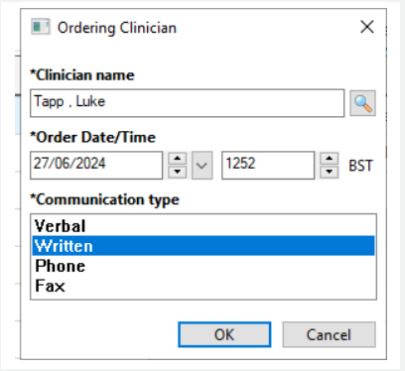

Select Healthy Lifestyles

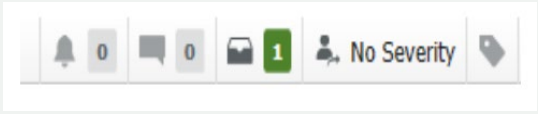

Select inpatient and type referral to **Healthy Lifestyle Service**

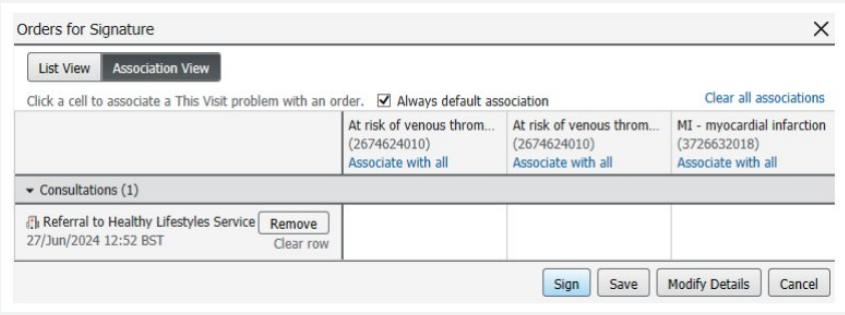

Select **Written** then click on **OK**

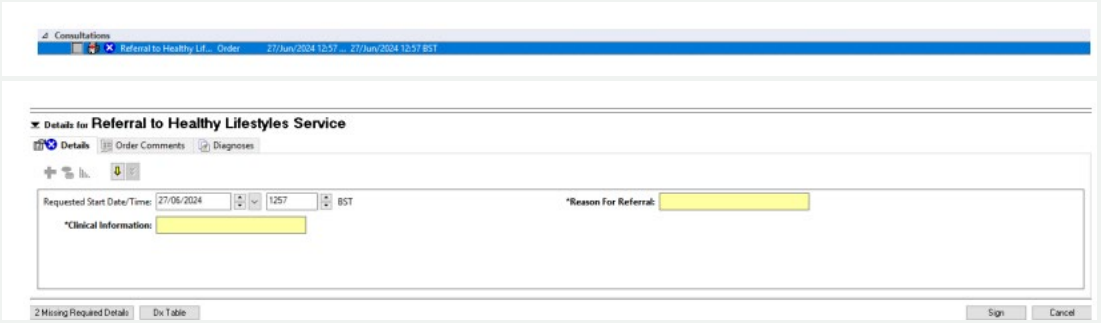

The green number (1) shows that a referral has been actioned. Select the **green icon**

Select **Modify Details** to add reasons for referral.

Add your reason for referral in the **yellow box** on the right then click on **sign** to send it.

What we offer:

- We have a Tobacco Dependency Advisor (TDA) team based at UHCW who cover Rugby ST. Cross as well.
- On receiving a stop smoking referral the team will visit your patient and have a conversation with the patient assessing their motivation to quit and their nicotine dependence.
- The nicotine replacement therapy (NRT) proforma will be completed by Doctors and TDAs will discuss NRT options with the patient and make recommendations on the proforma for doctors to prescribe , this will be placed in the patient's record electronically.
- TDA will continue to support during patient stay and on discharge will transfer to community care for ongoing support.

Contact us: call team on EXT 28292, leave message or email smokingcessation@UHCW.nhs.uk
