Centre

What is Simulation Training?

- Safe, realistic environment using high fidelity manikins and audio-visual system
- Small group training and a learning opportunity not a test

NHS
University Hospitals Coventry and Warwickshire NHS Trust

Why Simulation Training?

- Assessment and management of acutely unwell patients can be challenging and stressful
- The influence of human factors on our ability to work under pressure is increasingly recognised
- Hi fi simulation emphasises the importance of technical & non technical skills
- Simulation helps influence behaviours to improve patient safety

Communication

Teamworking

Situational Awareness

What you need to do to attend

- Obtain agreement from your Clinical Supervisor to ensure release from clinical practice
- Most sessions are half day, but a few may be all day and refreshments are provided
- To book on use the Medical Education Website or you may be contacted via email by simulation team with the dates and times
- Reminders will be sent prior to the course
