Fast access to clinical decision support anytime, anywhere

Funded by Health Education England, free to all NHS staff.

With extensive coverage of the most commonly-occurring conditions, Best Practice can be relied on to answer your clinical questions.

Supports you with the very latest evidence and expert opinion, updated daily, and linked to international guidelines.

Provides detailed drug information on dosing, availability, formulations, side effects and contraindications with our integrated formularies.

Helps you discuss treatment options with patients. Best Practice has nearly 480 patient leaflets accredited by the Information Standard and reviewed by our Patient Panel.

Supports professional development. Best Practice includes automatic CME/CPD tracking to support revalidation and appraisals.

Provides access whether you are in the surgery, on the ward, at home, or on call, with online, mobile and offline access via the BMJ Best Practice app.

You are called to see a 27-year-old woman with asthma on the medical ward. It is 3 am and her symptoms have got worse over the past hour.

She was admitted 3 days ago with an exacerbation of her asthma. She is now sitting up in bed and is short of breath and wheezing. She has just received a nebuliser but it didn't help a great deal. She is anxious and is not able to speak in full sentences.

What is likely to be happening?

What tests would you do?

What management would you advise?

Log in to BMJ Best Practice to find the answers to these questions.

“The app is perhaps the most useful tool I have used whilst studying in hospital. Having access to the BMJ Best Practice content on my mobile has helped me consolidate most of my knowledge gains whilst on the wards.”

Final Year Medical Student, The University of Manchester

Access to BMJ Best Practice is provided by Health Education England.

- To access your account, log in with your OpenAthens username and password.
- To register for an OpenAthens account, go to openathens.nice.org.uk, or contact your local NHS library and knowledge service through hlisd.org.

Remember! Download the app for quick access both online and offline.

- Access your App or Google Play store and search for 'BMJ Best Practice'.
- Use your BMJ Best Practice personal account details to sign in and download the content.
