

Major Trauma Course Feedback

Course Feedback (What our learners say)

- Great to have a truly MDT team.
- High fidelity simulation
- The introduction to trauma calls in a safe setting, helpful to associate the baptism of fire style of learning from just turning up to resus.
- I liked the style of teaching, comfortable, approachable, felt at ease participating whether right or wrong.
- Learning from more experienced medical professionals and getting involved with complex clinical cases.
- Small group, felt safe to ask questions, explore my limitations and expand my knowledge.
- High fidelity improved learning.
- The venue, equipment, particularly being able to watch the scenarios on a video was really helpful.
- The group were non-judgmental and supportive so felt able to ask questions, felt valued.
- Human factors, communication, and teamwork
